REVIEW OF INTERMEDIATE ACCOUNTING 15TH EDITION WILEY SOLUTIONS EXERCISES

- I downloaded this 40th Anniversary Edition through Amazon Kindle for the iPhone on Aug 20, 2009. I was not

impressed with the type errors presented in a book with 40 years of print. Location 1426, the word "iong" should be long. Location 2155, the word "ad{ninistration" should be administration. Location 4875, the word "formad" should be formal. Location 5217, the word "the" should be they. Location 6600, the word "thim" should be them. Location 8202, the word "A." should not have a period after it. Location 8889, the name "Gurney" has a superscript y. It almost became a game to track down any errors I read along the way. I hope you can use this short list to see if the quality of the ebook you received is the same or better. Still, the book was amazing and will be worth re-reading. There was a very acute sense of adventure and Herbert is clear on his descriptions of other world technology and jargon without dumbing it down. You experience learning about this world as the characters do or in like fashion. I saw the movie of this book shortly after finishing the book and I was very disappointed at the film. I'm hoping for an update of the original movie.

- There are two types of Dune fans. That is because the original book is written in two halves; the first half is pure political intrigue and world-building and action and conspiracy. The second half is more about Dune itself, its culture, its conditions, and ideas about religion, prescience and godhood. If you are looking for a book in the vein of the first half of "Dune", you will be disappointed. Yes, there is a conspiracy, and intrigue, but it is subtle, complicated and philosophical. No one is slipping poisons in drinks and stabbing people in the dark. On the other hand, what this book does have a good deal of is unique ideas, and interesting things to say

about Paul Atreides, who really gets fleshed out as a character here. Major props to Herbert for making a god-like character, who should by all rights be incredibly boring as he steamrolls his enemies with ease, into a very compelling, even tragic figure, in the grip of his own powers, unable to escape the future he's seen himself in. Other interesting ideas abound. The conspirators weapon to destroy Paul is.... a ghola (basically a clone) of Duncan Idaho, one of Paul's good friends and blade instructor from the last book, where he died bravely but

unceremoniously. Here, he's the most interesting character in the book. And how is he a weapon to destroy Paul? That's one of the more satisfying things about the book, the way subtle ideas become weapons and words and visions have power. Expect a dark tale of a man, who upon reaching godhood, is nearly destroyed by the forces he generates. And a lot of interesting ideas with it. Even more interesting is the reason why Paul walks out into the desert at the end, but that's only revealed (and only implicitly) in the next book, which I also recommend.
