## REVIEW OF REAL CCIE DATA CENTER LAB WORKBOOK CCIE UNIVERSITY

- This is well written, easy to read, and full of challenging thoughts and questions. Dr. Roberts is not afraid to touch on the controversial, but is gracious and rational in his approach. He gives sound advice for people who are in all stages of their walk. I especially appreciate his emphasis on fellowship in all areas of life for the purpose of intimacy with God and others. Anyone who reads this will be sure to walk away with great insights for

their personal spiritual development. A healthy 5 stars.

- As I read "Dress Your Family in Cuordoroy and Denim," I found that over and over I was relating to what Sedaris was saying. I could tell that had I

been in similar situations, I would be thinking the same things, as bizarre as some of his thoughts are. His writing is superb. His wit is razor-sharp. His anecdotes are wildly entertaining. It wasn't as laugh-out-loud funny as previous works, but I enjoyed it just as much. I feel like I got a better sense of the person David Sedaris instead of the extremely clever comedian David Sedaris.
