REVIEW OF THERMODYNAMICS CENGEL 7TH EDITION SOLUTIONS

- Keepers was hard to put down. I read it in two days. It held my attention and I remained curious throughout the book as to where we were going. What did all these people have in common?The book

was well written. The setting was perfect for the story. I have been to the bluffs, the mounds, the islands and caves of the river. The author did a nice job of taking me from nostalgia all the way to the occult. I loved the mystery and dark secrets of the river. Schulz has a bit of

Stephen King lurking about. Are his "keepers" of the same breed as Kings "low men"? If you have been to the river read the book.

- This is an amazing and compelling story. One of the few spiritual bios that is a total pageturner!
