REVIEW OF MICROECONOMICS GOOLSBEE LEVITT SYVERSON SOLUTIONS

- wow! i read the book a couple of weeks ago in American Lang. (I'm foreign exchange from America, I'm not British) everyone was puzzled at the end. i knew about it from reading it in fourth grade, and i'm in seventh, and it still carries me from day to day. this is the kind of book that needs to be made into a movie, but that might destroy it. the key idea would be for Lois to come on set, design the ideas, the buildings, everything, so nothing is wrecked. but that it isfar to hard sometimes, i know. i can't even capatialize, i loved this book so much! this book is the kind that leaves you dreaming of the possibilities, and a sequel might ruin it's glory as a creative tool in Lang. this is a good recomendation for teachers who want to reach people my age, because it traps you inside. some of the girl at my US school never read, besides zines, and they loved the book so much, they even borrowed a copy over night to get far into the book for the next day! check this book out, you won't regret it.

- I love the way Lois Lowry describes everything so carefully. Her ideas were wonderfully displayed! Recommended for anyone with an imagination and an open mind.
