REVIEW OF EDEXCEL MATHS INTERMEDIATE PAPER 5523 MARK SCHEME

- "Sweet Shrub" was such a surprise. This book looked like dripy ole' southern novel. BUT...how wrong I was. This book was deep, emotional and I loved the characters. DEEPLY. This is such a great book.....it's clear, enjoyable, and such a pleasant surprise.

- This book neither brings in any new flavours or categories into the market, nor is different from other books. People write about war, about suffering, about reunion and this book is nearly the same, except maybe the setting and characters. So, what do I think is unique in this book? For a start, we'll have to congratulate the author for being able to beat the competition into our Singapore schools and make the book one of the textbooks for literature. How he writes differently from other writers is because of his different angle of seeing and describing things that we often see or try to describe "vividly", as our teachers emphasise. The characters are special in their own way. A mature young lady, having to take care of her brother and sister-and a thief. A boy who shoots with his rifle at the soldiers who drags their mother away. A girl only a few years old. A boy who is so good at stealing things he is never caught red handed unless some clumsy boy who shoots at soldiers disturb his plans. They find out that their father goes to Switzerland in search of their mother and they try to "walk" there. But of course there are always free lifts from people who drive lorries or even carts that can hide them quite well. Their journey is full of children, hungry, dirty, ugly, not one rich, handsome, clean child or man did you realise? Their journey is full of twist and turns, no straight paths did you notice? Their journey, is one of the most spectacular in "history".
