REVIEW OF SOLUCIONARIO FISICA Y QUIMICA EDEBE ESO VBOU

- Imagine you live in a world where no one thought. No one thinks about their job, no one thinks about their rights, no one thinks about their families, and no one thinks about their education. Imagine, there were no worries in the world. Does this appeal to you? Fahrenheit 451 is a novel about a man coming to know the destructive society he is living in. His culture is such that if you own a book, you are burnt along with the book. For people who read are corrupted, their minds have been filled with silly ideas and shouldn't be able to spread them to others. People aren't educated well, and have no opinion. This leads people into a culture where thought is prohibited. He meets a girl who opens up his eyes into "a past where people [were] not afraid"(on the back of the Book). The story outlines the struggle that came with his recognition and and a changed, happier Montag. I loved the book, and think it taught many lessons. Although the world Montag lives in is not alike to ours in that our society prohibits us to think, I would still say that we are on our way to it. This book should be read by our entire populous. It helped me realize the blinding culture that we live in. I rate this book 5 stars. Good writing. Good themes. Good story. Amazing lesson.

- Where to begin? I find truly disturbing the sheer number of

young people who have sent in reviews describing the book as "boring, unfulfilling, poorly written, confusing", etc. Of all the "dystopian" books in the lexicon, I find this work to be the most straightforward and unambiguous(sp?). Judging from some of the vitriolic reaction above, it seems Bradbury's predictions are well on their way to coming true. The fact that so many find the book "confusing", points out the failure of an American education system that emphasizes self-esteem over actual achievement,

learning by rote as opposed to the actual accumulation of knowledge, and crowd control over teacher-student interaction. The book is challenging, but hardly the murky horror described by so many above. To close with a Bradbury quote "If my jawbreaker sentences shatter the teeth of the weak minded(small liberty with text), let them eat stale cake dunked in weak tea of their own ungodly manufacture". A true modern masterpiece
