## REVIEW OF REPARAR TRANSMISION MANUAL FORD ESCORT DIAGRAMA

- As the previous reviewer states, this book makes little attempt at objectivity, since it is written by a South Sudanese (Dinka) living in America. Unlike him/her, however, I feel that as a result of the subjectivity, I am still relatively uneducated about the civil war in Sudan. Concessions to SPLA brutality are fleeting and apologetic, and there is, I believe, no mention at all of the actual war between Khartoum and the SPLA-- a major drawback for me,

considering the book's title. The vast majority of the text deals with slavery. Jok attributes quotes to various Northern politicians, then admits in the footnotes that he has "no documentation as to when this statement was made," but rather attributes them to "popular political discourse." The most interesting parts for me were discussions of the roots of the North/South conflict in the Turco-Egyptian, Mahdist and Anglo-Egyptian occupations (especially the latter), but again these were frustratingly brief. In response to the previous reviewer's confusion, I believe that the contention is that Arabic, Muslim northerners have historically looked down upon African (though they're all African), Christian/animist southerners, the roots of which sentiment seem to be age old. It is understandable, however, that one would be fuzzy on the exact argument. The causes all seem to blend together; indeed, the entire book struck me as being rather poorly organized. Many terms or events were redundantly recounted/defined three or fours times in different chapters, the same points are made repeatedly, and the conclusion chapter is really a digression on the redemption program. Lastly, the actual writing could have used a thorough editing. Many sentences came off as rather awkward, and it seemed as though footnotes were often missing where they should have been. I suggest that one seek out a more objective account, at least as an introduction to the Sudanese conflict.

- This work is noteworthy simply because there is so little in English on the East German involvement in the Third World, notably Africa. The authors were involved in the GDR's activities in the Dark Continent and do an admirable job of describing the fits and starts of the German efforts to support liberation movements in South Africa, Zimbabwe and Namibia. At first more theoretical supporters of anti-colonial movements, the GDR became an enthusiastic (and as the authors imply, sometimes overly zealous) proponents of both armed and political solutions to the struggle against minority rule. The authors are also candid about the internal faults of their former nation, which contrasted their governments' support for democracy abroad while denying it at home. Hopefully there will be other books that detail the East German activities in the Third World.
