REVIEW OF PRINCIPIOS FINANZAS CORPORATIVAS MYERS 9 EDICION

- Explains how different forms of dementia show themselves and how they are likely to progress. Offers advice on dealing with problems as they arise, on seeking professional help and on trying to see the sufferers' point of view. Discusses the emotional stress carers go through and suggests ways of keeping the strain to a minimum, the possible causes of dementia and the search for a cure, and, the legal and financial problems that may arise.
- The way the author wrote this book is amazing. He bring Sherlock Holmes to life right in your living room. The stories are great with one main detail, suspense. The way the book is set up is good with stort stories and tells that are sometimes boring but fun to read just the same. I would rercomend this to any one who enjoys mysteries that need some scientific thinking.
