**REVIEW OF ADVANCED MEDICAL TERMINOLOGY AND TRANSCRIPTION COURSE**

- at first i thought i don't even want to buy a book with this title. what if someone sees me reading it...but i quickly got over that after flipping through some of the pages and seeing some of the common mistakes i've made. as a black woman a lot of the advice she gives is some of the stuff i've heard from my mother (who's been married to my daddy for 30 yrs) but with so many sources (magazines, talks shows, friends, self help books, church, etc) telling you what to do to get a guy to act right it's just confusing. don't let the title fool you...this is a funny book that is dead on about how to get a guy to treat you the way you want to be treated through your own smart choices.

- I found "Travels" to be an excellent page turner. Michael Crichton has accomplished quite a few feats in his life, and shares a few with us in this book. I did not care much for the "supernatural" sections he has written about, but that is just my opinion. All in all, if you are a Crichton fan, or a fan of traveling throughout the world, I highly recommend reading this book.
