REVIEW OF LANCER AUDIO PINOUT GUIDE

- I found the product to be in good shape and it was shipped per the seller's specifications. I would purchase from this seller again.
- First and foremost, know that I'm a complete Princes Bride movie buff; the book is `very' different from the movie but in a very cool way. The book is a lot more dark; however should be expected; it's common for a book to be better than a movie, so get ready for what almost seems like another adventure with the memorable characters we all know and love in the movie. The only negative thing I have about the book is that the introduction is very dry reading. For those of you who want to just jump in and start reading, you'll have a HUGE set of introductions to wade through before getting to the good stuff. Otherwise, this is a fantastic book and I'm glad that I got the chance to read it; it sits on my bookshelf next to Lord of the Rings and The Hobbit. Enjoy.
