REVIEW OF SEMICONDUCTOR PHYSICS AND DEVICES NEAMEN 4TH SOLUTION

- Although not an exciting read, this book should greatly interest the die-hard cigar aficionado and the botanist alike; it contains wonderful photographs and information on traditional and newly developed tobacco varieties, diseases, processing and cultivation.

- I emerged from this book as one baptised in the cogent waters of a formidable intellect. Camus' masterpiece remains an astonishingly moving work even today, despite the half century that has passed since it was published. The story of a highly contagious plague which sweeps through the small north African town of Oran in an unspecified year in the 40's is an intrinsically human document, a social, philosophical and psychological study dealing with exile, seperation, love and bereavment, yet all delivered in the most objective of fashions. While the book can be enjoyed as a straightforward (and harrowing) narrative, the status of the plague as a metaphorical device is easily recognisable to the reader, although which specific comparison Camus wishes to make is perhaps less apparent: the reader can attempt to guess, or indeed assign whichever they themselves see as most fitting. None of the power of the novel is lost due to this fact. While the scale of the sheer loss of life the plague engenders is constantly made clear to us, the novel centres around a group of friends, all male, who are thrown together by grace of the plague itself. This group of people from all walks of life function as a cross section of the plague's effects on society, especially after Oran is quarantined and hence shut off from the outside world. I found the anecdotal structure dealing with the misadventures of Rieux, Tarrou et al to be one of the novels greatest strengths, particularly when one witnesses the fragile and delightful friendships which burgeon between the protagonists and each characters own peculiar strategies for dealing with the horrifying situation in which they find themselves. Love, perhaps the most powerful of human emotions, has a particularly unique representation in the book, as much of the novel is spent in the depths of seperation, inaugurating a particularly objective viewpoint of love and its connotations. The grim inevitability of death makes the novel as a whole rather a morbidly fascinating yet inherently horrifying journey, and some scenes (such as the agonisingly slow death of a plague stricken child) are genuinely shocking. Despite this, Camus depicts the nobility of human spirit, particularly in times of crisis, with astonishing ease and grace. I found myself questioning the values by which I, indeed all of us, live after finishing the book, and although Camus paints a chilling picture he does afford us a final message of hope which is very gratifying. As a social study and telling look at the behaviour of humanity, this book is invaluable. Camus delivers myriad messages, yet it is scenes like that involving a moonlight swim or a plethora of dying rats that, I feel, will never leave my mind. Hugely recommended to anyone with a modicum of intellect, or indeed those who enjoy a yarn with all the facets of a classic story: love, death, tragedy and hope.
