REVIEW OF 4M50 ENGINE VALVE CLEARANCE

- I read the Shelters of Stone over a 3

day period. I had to force myself to keep from reading the whole thing in one day. It was definitely worth the 10 year wait. The story picked up right where Plains of Passage left off. I loved every minute of it. I first discovered the Earth's Children series in 1987. I was hooked from the start. Jean Auel obviously does a great deal of research and I love her writing style. I will await the final book in this series anxiously. I'm curious to know what will happen to Ayla, Jondalar and baby Jonayla in the final book. I'm sure that no matter what the story is, it will be as exciting and emotional as the first 5 books.

- Louisa May Alcott's 'Little Women' is one of the most captivating and heartfelt stories I have ever read. This is the story of four sisters, living at an unstable time in American history, who learn to overcome poverty and selfish wants to become mature and accomplished women. Their triumphs will bring a smile to your face, while their trials will bring you tears. The March sisters will win their way into your mind and heart, and their story is one you will not soon forget.
