REVIEW OF GAMING COMPUTERS GUIDE

• Though this books seems to have acheived "classic" status, I'm not sure it necessarily belongs there. I was pleasantly surprised by some of the ideas and a little amazed by Hilton's seeming to predict the concept of (though not in so many words) nuclear war a good 15 or so years before Hiroshima.As a period piece it was charming, but it was so sparse in its style that it left me wanting more and didn't so much end as just kind of fade away.
