## REVIEW OF LIVRE DE MATHS 1ERE S BORDAS

- After buying it as a gift for a retired judge and law professor, I took a gander. Frankly, it's nothing you probably didn't already know, as if the title doesn't say it all. What you didn't know hits on the same old bad media cliché, just older. My friend's response

was that it was a mind dulling read. Might be a good choice for someone who wants to be immersed in the currently popular I hate the press pool, but I certainly didn't get the response I had expected from one of the best read men I know.

- Whenever people are struggling they know God loves them, but

how does that help them? Through this book of God's loving promises God can help you through anything, all you have to do is believe. I had it for two days, and i loved it so much that i gave it to one of my friends as best and most encouraging gift i could give.
