In an original and compelling examination of traditional mathematics, this comprehensive study of the anonymous Manual of Mongolian Astrology and Divination (published by A. Mostaert in 1969) takes on the fundamental problem of the post-enlightenment categorization of knowledge, in particular the inherently problematic realms of religion and science, as well as their subsets, medicine, ritual, and magic. In the process of elucidating the

rhetoric and logic shaping this manual the author reveals not only the intertwined intellectual history of Eurasia from Greece to China but also dismantles many of the discourses that have shaped its modern interpretations.

REVIEW OF QAD MANUAL

-Pearson doesn't write car chase thrillers or violent books, instead, he tells a story, let's you know who the villain is and then spends time creatively having the characters dispense justice;usually outside the legal system's solution. It's not a who-done-it or a cozy but a story where businessmen and lawyers are usually the heavies; where deeds coupled with clever solutions to problems affected by ordinary people doing extraordinary things in the face of pressure win the day.Granted, you have to think and use your own imagination as you read. After all, this isn't television doing the thinking for you, it's a book where you can enjoy plot and character nuances your own way. I began to like Sydney and Brent in his first book and they flower again here.Give Pearson a try and you'll find out that the story is good. At the same time, I'd tell you that if you want a murder a minute or car chase scenes and ... every ten seconds, then this isn't your cup of tea; they are only here as they fit into the problem, the plot, the solution and the people. Pretty fair start, I'd say, having read it.Pearson, like Dick Francis, grows on you...give him a try.Rumor is he is working on a third titled "A Double Standard."Bring it on!

- So You Want to be a Wizard is a great book. The story has a great setting and plot. It is about a girl,Nita, who always gets beat up by a bully, Joanne. One day Nita finds a book in the library that says, So You Want To be a Wizard. She becomes a wizard and finds another wizard, Kit. They join forces and try to defeat the dark world, which has cars alive, dragons, and wolf like creatures, perytons. WOW!!!!!!!!!!
