## **REVIEW OF MANAGERIAL ECONOMICS 7TH EDITION KEAT**

- I love reading dystopian stories. Although they seem like paranormal stories in a sense, they also have this feeling of "My God, this could actually happen." That's how I felt reading *The Giver*. I was surprised with how monotone the Community was, and as I read along and found out the people chose this life, it felt real to me in a sense. If this life was a possibility, I wouldn't be surprised that people would chose it: It's a life with no hurt or pain, no anger or sadness, nor any negative feelings/emotions of any kind. The sacrifice is that people also feel no happiness, love, or any positive emotions. That was the choice. To live in Sameness. Because this was a book club read, my head is chocked full of questions with half-answers, and debates about the book. We had a lot to talk about with this one. It's hard to give any examples without giving spoilers, so I apologize that I can't really explain. I will say that it is definitely a book that will get you thinking, if you allow yourself. If you really think about the world they live in, how they function on a day-to-day basis, and then how Jonas shown the "way things once had been" and has to take it all in stride, it will have you feeling some strong things. As for the characters themselves, I thought that Jonas and the Giver were deep, thorough characters, while the rest were all the same. Considering the fact that the Community's number one goal was Sameness, I have to say that the characters were written perfectly. Aside from the two main characters, there were maybe 1 or 2 other characters that I felt anything towards, and that was because of the way Jonas felt about them. Lois Lowry definitely did a good job writing her characters so that you felt what Jonas felt. Whether you have to read this for school in Grade 7 or choose to read it years later, *The Giver* is a great dystopian that will open your eyes to the way things might be if we finally break and are too afraid to be different.

- This novel is a brilliant work with deep insight into the future should humanity continue to try to control nature. There are unfortunate things that happen and that is just as important and exciting a part of life as anything else. The book gives us a look at the moral choices of a 12 year old boy that makes decisions that todays adults should be proud to have such integrity to choose. The ending is absolutely brilliant. It allows the reader to think whatever he or she chooses happened to Jonah. Lois Lowry herself said that the end is up to the reader. If you haven't read this book do. It is far above its reading level. Every adult out there should take in this quick read - it has a heart we all need.
