So what are you waiting on? Beginning your At Home Aqf downloading journey today and experience all the advantages and ease that the electronic world of books needs to offer!

REVIEW OF AT HOME AQF

- So wonderfully wrapped up in Gail Howard's Lottery Master Guide that I did not even look at this one until 24 hours before the last mind blowing powerball. Then I discovered the fabulous, easy to follow instructions and steps I can take for very little money. I am dyslexic and was initially afraid of this because of the wheeled groups and number selection. I need not have been because it was easy and very satisfying-just did not have enough time to win this last Mega Millions. Sure, I went over it twice but most people wouldn't have to, my neighbor said it was so easy that she bought the same book. Lots of interesting points like five winning numbers, quick picks, number selection method, wheeled groups-all made simple through step by step instructions. Gail Howard has a way of explaining and laying out concepts that make it all very easy to understand. That is very rare in this genre of books and I have read through many of them-many seem to be directly copying her. She is the one who has been around the longest and she came up with the original wheeling systems-I found something she had written years before any of these other books were out. This really is the author to follow. Lots of suggestions of how to win with very little money (under twenty dollars-my current limit and some much, much lower). I love this! There are powerballs all over the world and throughout the US this applies to and I am going to make sure I get around to all of them. You can be sure I will be reading

the rest of these books.

- The story's compelling, but often Auel's writing comes off as amateurish -- the quickness that Ayla grasps certain concepts, for example, such as when she guesses at the true cause of childbirth, or that she is "ugly" compared to Clan women, happen far too abruptly, even if she is a modern human. Something more dubious, though probably more forgivable if looking at the book as a work of fiction, is her decision to give the Neanderthal characters the gift of "racial memory," an ability to regain memories of their ancestors. That is connected to the enlargement of their brains toward the back. Secondly, Auel's writing is not advanced enough to allow her to 'show' things rather than 'tell' them. This applies both to her characters and the society she is trying to depict. Most of the time, the characters -- Ayla being the exception, probably because it is easier for us (and Auel) to understand a character who is 'human' in the same way we are -- come off as somewhat flat. Potentially interesting character traits that Auel insists that these characters have are often negated when they act or speak. For example, she tells us that Creb is feared -- or at least seen as 'cold' -- by the Clan, but we never see this. She never shows us Creb's tenderness towards Ayla, we're merely told he feels it; She never shows us that Brun doubts his own authority, she simply tells us he does; both Creb and Iza treat Ayla with less love than we're told they feel for her. In addition, the 'formal' Clan way of speaking comes off as stilted and doesn't ring true, even if it's supposed to be a translation of sign language. This same concept applies to Auel's depiction of the Clan society itself. She consistently fails to SHOW us the way the Clan functions -- she usually is forced to make a long digression from the story to explain to us a certain part of their way of life that is necessary for understanding the next part of the story; this has the double downside of being distracting and boring, as well as giving us a big clue as to what's about to happen -- she doesn't have the skill to use foreshadowing in any long-term or meaningful way. The effect is, of course, that by the end of the novel Auel's writing is entirely predictable. But despite all of her faults as a writer, Auel is clearly a knowledgeable person, and even her digressions don't fail to carry some interest. Her prose, if not sophisticated, is usually clear, even if it does occasionally feel like reading a text book when she wanders too far from the story, or if she renders most of her characters faceless.
