REVIEW OF CLINICAL SONOGRAPHY A PRACTICAL GUIDE SANDERS

- I read this book when it first came out

and I still find myself trying to get everyone I come in contact with - especially women - to read it. FRIGHTENING! Those who say such events could never happen should review the rise of Nazi Germany, the events going on in Afganistan or just the rise of religious fundamentalism in the U.S. As profound as Orwell's 1984.

- The 'Handmaid's Tale' is an astounding novel about a woman and her struggles with a futuristic society. It is very easily related to, and a twist from 'normal' novels that have a futuristic setting. The Handmaid's Tale is a wonderful and thought provoking novel for the women of todays society.
