And if you ever before need aid discovering the ideal publication, our knowledgeable personnel is below to supply customized suggestions.

REVIEW OF AN EXPLORATORY INVESTIGATION INTO FACTORS AFFECTING VISUAL

- I picked up Beauty & Submission on a whim, after reading the back cover. I have recently begun to read a few BDSM and thought this book would help broaden my knowledge of the submissive aspect. I was disappointed with the outcome. I thought the book held more issues with jealousy and swinging than the day-to-day life of a lifestyle submissive. I also thought that the slave seemed to switch between a dominant/submissive role. There were quite a few references to watersports which were personally not my cup o' tea, as you might say. I did not enjoy all the pages where she "quoted" from her other novels. I believe the book would have been half the size if these would have been cut from the copy. It felt like an attempt to sell her other books.

- It would be difficult for this book to top its predecessor. In fact I would say this is a step down from A Princess of Mars in general quality. However, A Princess of Mars is, in my opinion, the best story ever written. If you're looking for an interesting, fun sequel, this book delivers well. John Carter returns to Mars after a ten year exile on Earth. There he is reunited with his old friend Tars Tarkas. Together they fight their way through the Martian "heaven" (which turns out to be a living hell) past giant apes, plant men and false gods. Along the way they meet new people, discover hidden races of "gods," and find new quests. However, this book fails to reunite John Carter with his wife Dejah Thoris until late in the book (very late in the book). Their relationship was always my favorite part of the original, A Princess of Mars. Naturally, I am a bit disappointed in this. However, I feel that The Gods of Mars holds up better than most sequels--it is fun and exciting, and returns the reader to one of the most interesting worlds ever conceived in all of fiction. As an avid Sci Fi reader, I can honestly say this is one of the better science fiction books I have read.
