## REVIEW OF APOSTILA EXCEL FORMULAS E FUN OES

- Verne is the original, there's no question about that. Frankly, Verne is science fiction for people who don't like science fiction. His imagination in creating a submarine, particularly one that could

remain submerged for days at a time, is almost mind-boggling. Also, he imagines something very much like real-life diving equipment for the scenes on the sea floor and dealing with the squid.

- This book was an easy read. I enjoyed the story and would recommend reading it .I would read this book again
