REVIEW OF BOOKS WAYNE OPERATIONS RESEARCH

SOLUTIONS MANUAL PDF

- The book includes the very first x-men comics ever published. I was a HUGE x-men geek back in the 80's, about the time that Longshot joined the team. I had most of the issues from about 150 - 250, and I always wanted to go back to the start and read the story from the very beginning. If you did/do too, this is where to start. The other series, "the essential x-men" which also has a #1

starts with the mid-70's "reboot" that introduced Wolverine, Nightcrawler, Colossus and Storm. The whole thing is in black-and-white, though, which feels a little strange when you're reading it.

- Horror writer Bentley Little moonlights in the suspense genre under the pseudonym "Phillip Emmons." Gruesomely original with the most politically incorrect serial killer ever committed to paper. The final setpiece in a Phoenix hospital, is a nail-biter.
