REVIEW OF CHEMISTRY THE CENTRAL SCIENCE SOLUTIONS TO BLACK EXERCISES EIGHTH EDITION

- Here is a mind-boggler of literary art. Golding takes you in--in through the portals of the main character's mind. And then the true adventure begins. This is an exploration on the theme of freedom lost, which goes into an existential search, taking you through a labyrinth of broodings and memories deep, deep within the psyche, and in the end you

(together with the protagonist) will experience something stirring and substantial. It is the turning of freedom outside-in, and in and in and in, and then out again. Just read one chapter. That's all it will take to enter uncharted territory.

- Definitely a fascinating entry for the WoD series, and in my mind, a candidate for its own 'line,' rather than just a supplement to V:tM's Western Kindred. Complex, yes -- but reflecting the complex patterns of history and society of the Far East and the philosophies animating these mysterious creatures. If you look at just dots and damage dice, indeed, it is easy to create formidable fighters from these creatures--

but there are lots of other opportunities and paths to follow, if you're willing to open your mind to them. It's especially important to remember how crucial "setting" is to these creatures...just as a lone Ventrue stands little chance of surviving in the Middle Kingdoms, in the West, the Kuei-jin are still making inroads. On a singular basis, the challenges the West presents should keep these powerful Kindred in check.
