## REVIEW OF HOLLAND FREI CANCER MEDICINE

- A very interesting and unique treatment of the story. I thought the story started a bit slow, but then I was presently surprised after getting past first chapter. The story caught my attention and still left small pieces of the history up to my imagination.

- I anxiously awaited the release of this novel after reading the emotionally draining *Point of Origin*. Unfortunately, *Black Notice* wasn't as powerful as I had hoped. I was disappointed by the disconnect between the crime scenes and the new characters (Bray and Anderson). There seemed to be two different stories going on that never really came together. Nonetheless, I am still a huge Kay Scarpetta fan and am once again anxiously awaiting her next book.
