REVIEW OF SAMPLE SCOPE DOCUMENTS

- I liken this book to a boy band group. Some smug hair gelled agent realizes that all he has to do is pluck some young teenager from obscurity, give him a huge marketing push and sell him as every other teen wanabee's dream in order to wrap the foil of the publishing world around a turkey of a book. In spite of the writing being as captivating as crumpled gift wrapping the storm of advertising guarantees that the fans will eat it up. The adherence to contemporary metaphor, story rhythm, character drama, and daring uses of the protagonist/antagonist duality are all tossed for a cheap laser printed fairy tale. The masses of young people who buy this book are simply doing it to revel in the young writer's rags to riches story. A few press releases later and you find hordes of desperate teenagers attempting to identify the star's apparent overnight success with their own potential. This is why many of the novice consumers will shout to high heaven with fingers in their ears when someone with more sophisticated, and more deserving, tastes attempts to

reveal this book as the lightweight material it really is. This book represents the worst of cheap, instantaneous, lazy fame. The "maybe it can happen to me" effect gets pumped to full volume so that hero-oriented teenagers can hope that someday their own understanding of the world formulated from sci-fi movies of the week will be seen and appreciated by everyone. Often the songs/screenplays/novels are atrocious mock-ups of well cultured three-dimensional classics that everyone in the world was inspired by. What flies over the head of most young artists is that what is considered inspirational is often brought about from the chaos of the evolving world. Socio-economic changes, shifts in national personality, new sciences, heck even hitting puberty all serves as potent inspiration for well cultured ideas portrayed through songs, film, paintings and of course books. Merely echoing a genius work only spotlights how little the shadower understands of the art. Much like how a math student can scribble the professor's workings on the chalk board and even calculate them, but not know how to create the formulas themselves. Like the bumbling math student, young writers/songwriters/actors often surf into a tunnel vision of perfection that leads not only to bad, predictable writing, but also to featherweight computer snap-pop, armor piercing rap music, limp wristed goth battle movies and cliques of fashion dojos. Teens need a standard of perfection and they look for it beyond their parents, namely in the glamor of a copy ad. The underlying mentality is "If you're good enough for tv, you're good enough for me!" The understanding with most children is that whatever worthwhile, and thus beautiful, is filmed. If they can be associated with what is

beautiful, strong, courageous... perfect then they will be entitled to the riches of the world. Like all the clothing pinnups, teen be-bop songs and grainy online video contests this novel is just another ego enticement for the young. Like its cousins the novel is about as memorable as a phone jingle from a blackberry. I've always been irked by the old mantra that reading a book makes you smarter. Junk books exist as much as junk media, it's just that you can absorb and critique a movie much faster than a book. This is why movies take more flak for being

horrible in general. People can see several movies much faster than they could read several books. No one has time to read a bad book... unless you are young enough get ensnared by the jungle trap of the marketing hunter.

- My 8 year old daughter's comment: "I just loved Eragon. The story was filled with magic and drama. Eragon's and his dragon Saphira's adventures were thrilling! It was certainly worth the time I spent reading it and I recommend it to children 8 and up."
