REVIEW OF CHEMISTRY CHAPTER 7 TEST CHEMICAL FORMULAS AND COMPOUNDS

- Although Sittenfeld writes beautifully and does provide a convincing and

somewhat poignant description of the highs and lows of high school, her book fell short of my expectations.

Sittenfeld's debut novel contains no plotline and instead focuses on character development. I felt as though Sittenfeld aspired to convey some kind of deeper meaning in her work. Her work is not didactic, but rather, is annoyingly esoteric. The central protagonist - Lee, is a small-town girl from Indiana. Lee applies to and is accepted at an exclusive Eastern boarding school. Lee struggles to fit in - her four years at high school are torture. Sittenfeld sets up what should have been an interesting, although somewhat predictable

scenario. Instead, Sittenfeld does not employ the usual conventions of teen fiction (there is no happy ending). 'Prep' left me bored and unsatisfied. Where was the scandal? Where was the intrigue? Lee is cantankerous, disagreeable and anti-social, as a character she is pitiable. She whines and moans about her 'hopeless' situation for over four hundred pages. Only if you enjoy reading self-pitying, woeful lamentations will you appreciate this book.

- I attend one of "those rich prep schools", and after reading this novel i would just like to compliment Sittenfeld on how much they really got the politics and scenarios right. Sure, the characters are a little cliched, but

this author is right on descriptions and lives
target with the in the prep school
world.
