In the second edition of *An Introduction to the Geography of Health*, Helen Hazen and Peter Anthamatten explore the ways in which geographic ideas and approaches can inform our understanding of health. The book's focus on a broad range of physical and social factors that drive health in places and spaces offers students and scholars an important holistic perspective on the study of health in the modern era. In this edition, the authors have restructured the book to emphasize the theoretical significance of ecological and social approaches to health. Spatial methods are now reinforced throughout the book, and other qualitative and quantitative methods are discussed in greater depth. Data and examples are used extensively to illustrate key points and have been updated throughout, including several new extended case studies such as water contamination in Flint, Michigan; microplastics pollution; West Africa's Ebola crisis; and the Zika epidemic. The book contains more than one hundred figures, including new and updated maps, data graphics, and photos. The book is designed to be used as the core text for a health geography course for undergraduate and lower-level graduate students and is relevant to students of biology, medicine, entomology, social science, urban planning, and public health.

Interest in anaerobic digestion (AD), the process of energy production through the production of biogas, has increased rapidly in recent years. Agricultural and other organic waste are important substrates that can be treated by AD. This book is one of the first to provide a broad introduction to anaerobic digestion and its potential to turn agricultural crops or crop residues, animal and other organic waste, into biomethane. The substrates used can include any non-woody materials, including grass and maize silage, seaweeds, municipal and industrial wastes. These are all systematically reviewed in terms of their suitability from a biological, technical and economic perspective. In the past the technical competence and high capital investment required for industrial-scale anaerobic digesters has limited their uptake, but the authors show that recent advances have made smaller-scale systems more viable through a greater understanding of optimising bacterial metabolism and productivity. Broader issues such as life cycle assessment and energy policies to promote AD are also discussed.

In recent years, the number of conflicts related to the misuse of street art and graffiti has been on the rise around the world. Some cases involve claims of misappropriation related to corporate advertising campaigns, while others entail the destruction or 'surgical' removal of street art from the walls on which they were created. In this work, Enrico Bonadio brings together a group of experts to provide the first comprehensive analysis of issues related to copyright in street art and graffiti. Chapter authors shed light not only on the legal tools available in thirteen key jurisdictions for street and graffiti artists to object to unauthorized exploitations and unwanted treatments of their works, but also offer policy and sociological insights designed to spur further debate on whether and to what extent the street art and graffiti subcultures can benefit from copyright and moral rights protection.

Compiled to identify both sound and unproductive practices while suggesting advancements for India's governance, this volume seeks to analyze India's efforts made towards progress and to eradicate corruption. Containing previous exemplary initiatives and information about public-domain tools, this resource deals with the perception of governance in India and its status in the monopolistic services including the four major ones—the police, judiciary, income tax, and property registration. This account also discusses citizens' charters, the right to information, e-governance, social audits, report cards, and the integrity pact as means for positive development.

REVIEW OF CAMLIN FINE SCIENCES LTD

- Most fortunate was the day I stumbled across this book while rummaging through my mother's library. Of all the books I have read thus far, I believe "Till We Have Faces" the most poignant and the most profound. C.S. Lewis uses the Greek myth of Cupid and Psyche as a basis for his tale of two sisters, one guiltless and beautiful, the other good but ugly of face. He employs their lives as an allegory of the incarnation and sacrifice of Christ to answer the timeless question of why God allows bad things to happen to good people. Superficially, "Till We Have Faces" is a grave and at times grim fairytale of the sister princesses Orual and Istra in the dark primeval kingdom of Glome. The book is constructed as the complaint of the homely Orual (who comes to represent a virtuous, but flawed mankind) against the gods for the sorrows of her life. Through the embittered Orual coming to see her own selfishness of heart and how futile it is to try to fathom the designs of the divine with mere mortal reasoning, Lewis does not belittle human sorrow or suffering in comparison to the greatness of God, but rather attempts to represent salvation as a power to heal the deepest wounds and the

greatest sorrows.

- I had the great fortune of bringing this with me to Crete (not noing it takes place/was filmed there) and it was a very good setting for enjoying it. This book overflows with good reasons for living and it helps you understand that you should not postpone really living to later. It's full of wisdom (and not the cheape dime of dussin type either)! If everyone had the life philosophy of Zorbas the world

would be a better place. If everyone in the world read this book it would improve this world. It is also a very fine piece of literature and is therefor on my top 25 list! Kazantzakis is a very good ambassador for the greek people, but he doesn't paint them all white. He paints them as they are a fantastic people, but three dimensional like all humans are. I also loved the movie, Anthony Quinn was a very good Zorbas. For those who are depressed it will lift your spirits. For the rest of you it will make you smile and rethink your values and your own life!
