## **REVIEW OF MANAGEMENT 10TH EDITION STEPHEN ROBBINS**

- This is probably the most exciting and the most interesting of all the 25 Tintin adventures. Considering it was written early in Herge's career (c. 1930s), the level of proficiency and artwork is

extraordinary. In this adventure, really the continuation of "Cigars of the Pharaoh" but able to stand on its own, Tintin travels to China to root out an international drug-smuggling gang. During his stay in China, Tintin gets enmeshed in the politics of the time, when the Japanese were secretly creating pretexts for extending their occupation of China. At a time when the European powers were practicing appeasement towards Japan, this adventure is a daring stance in solidarity with the underdog - here being the Chinese. Much of the day-to-day events of the time are interwoven seamlessly with the action of this adventure comic. Neither is the opium trade (the centerpiece of this story) that the colonial powers pushed on China far removed from reality. What is perhaps the most amazing thing about this creation is that Herge never traveled to China, not before nor after this story (though he did go to Hong Kong much later in his life). For information about China, he relied on magazine photos and articles, and on the information provided by a friend and roommate Chang Chong Ching, who played the role model for the Chang Tintin befriends in the story (and whom we encounter later in Tintin in Tibet). Chang is the one who wrote the myriad excellent specimens of Chinese calligraphy ornamenting the book. All the Chinese signs in the adventure are meaningful inscriptions, from simple restaurant signs "Foods" and advertisements for international companies "Siemens" to anti-imperialist and anti-Japanese slogans graffitied on the walls. These signs paint a realistic portrait of the Chinese environment at the time. All my Chinese friends who have read this adventure swear that the depictions of China are realistic and cannot believe that

Herge never visited that country! This comic story has all the components for a great piece of art/literature. The artwork is masterful, the settings and scenery realistic, the plot and action entertaining and suspenseful, and the characters well-developed and possess considerable depth. In addition, while the ending is happy, the story is not free from life's tragic moments that bring tears to the eyes. A definite must-read for all Tintin lovers, as well as for those wishing to learn something about China and its recent history.

- I read this book after reading "Way of the Peaceful Warrior" and "Sacred Journey of the Peaceful Warrior." I highly recommend both of those, but the thing that I like a lot about this book is that it presents its message in a shorter form than the two mentioned above. I really like how this book is organized into 12 sections "Laws" so that you can look any specific one up as needed. Each chapter begins with The Law that will be presented, a short verse pertaining to it, a quote relevant to the topic, then it's right to the story/example/point of the lesson in understanding the "Law". It's along the same lines as "Peaceful Warrior" books in that the lessons are learned from a sage through different experiences. Some of the experiences are extreme, -but useful in that - so often, are the life experiences that awaken us extreme. There is a lot of good information in this little book that we need to help us as we continue to grow in our spiritual path. This is a book I will keep on my 'favourites' book shelf. The shelf where I go back and run my fingers along the book spines and pick just the right book to remember/refresh and read again.
