The Complete 3-Book Collection with Classic Art by Stephen Gammell HarperCollins

"Over the blazing campfires, where the wind moaned eerily through the thickets of juniper and fir, they spoke of it in the Indian tongue—the strange lake to the southward whose waters never rest. And Nawa, the medicine man, who had lived such countless moons that not even the oldest member of his people could remember a time when Nawa was not old, declared that, if only you arrived at the right time, on the right night, you would see the buffaloes rise out of the middle of the lake and come crowding to the shore; for there, he said, was the sacred spot where the buffaloes began." Ten-year-old Little Wolf, an imaginative and courageous boy, is determined to observe this spectacle, and his quest leads not only to a miraculous vision but also to the salvation of his tribe. This Caldecott Honor picture book and National Book Award nominee was hailed by Booklist as "an eminent picture book and, incidentally, one that proves that black and white can move as forcefully as color." The New York Times praised artist Stephen Gammell for his "spectacular scenes of tumbling clouds, of earth churned by flying hoofs, of teepees in the early dawn. But most of all he conveys the hulking, surging, rampaging strength of the shaggy buffaloes as they rise out of a shadowy mist, the mist of legend or dream."

REVIEW OF SCARY STORIES 3 MORE TALES TO CHILL YOUR BONES ALVIN SCHWARTZ

- I like this book, of course. However, Amazon's "Print on Demand" leaves the buyer with a text that is almost incomplete. I guess I was warned, but I did not expect paragraphs of material lost due to the accuracy of the photograph. I could have rated this item five stars simply for the content of the book, however, the mistakes and unreadable content in the book would not allow me to rate it so high. Here is an example of the mistakes in the text, in case someone is curious: "1. The consanguine family. The co nganguine familv is th e first step toward the famtl. Heie the niarriage groups. are-arranged by generations: all the grand-fathers and grand-mothers T nt"BTir a certain famijylare. mutual husbands and 5 3 51?? J-the."As you can see, these mistakes render the text less than intelligible. The frequency of occurrence seemed to be about once a page, with some excerpts worse (harder to understand) than others. There are a few pages that are full of this gibberish, and I was not able to read them. Nevertheless, this book is not common, and it is good to have my own copy (for cheap), albeit slightly incomplete.

- Despite a fair summary of Qutb and a few critical comments about Sharon, Berman defends aggressive attacks on the "enemy". The book and thesis are essentially sophomoric simplification that seems to have impressed (from plaudits printed inside) numerous other unqualified readers who know the subject no better. It meets emotional needs for some but adds no depth of understanding. The thesis is a defense of aggression based on little more than Pop Psychology about totalitarianism and "suicidal" violence - referring to Camus but lacking his broader understanding. Broad categories and labels are grotesquely inaccurate lumping Islamic Fundamentalists together and describing them as Fascist and Totalitarian. There is considerable diversity in the real world with some ready to participate in elections, and most who are not terrorists. Many are concerned almost exclusively with their own homelands. In the case of Iraq a secular, anti Fundamentalist, enemy of Al Qaeda was the US target. Consider too that there are proportionally probably more Christian Fundamentalists in the US than Muslim ones outside Saudi and Afghanistan. The history (including questionable conclusions describing the fall of France to the Nazis as solely from "liberal/socialist" lack of backbone) and psychology (sex, suicide, and totalitarianism are a syndrome) are not valid. They do, however, serve as propaganda demonizing Muslims in support of US and Israeli state counter terror. Again they provide a reason to avoid looking at the real issues and grievances resulting from those policies or the essential source of terror training and broad contacts from the CIA and ISI trained alumni of the Afghan-US war against the Soviets in Central Asia. (These are the folks whose leaders trained in the US and who were called, like the Contras, "the moral equivalent of our founding Fathers" by Reagan!) At least Berman's book it is not quite the insult to one's intelligence as explaining 9-11 by "they are jealous of our freedoms" but it is just as muddled thinking and equally motivated by propaganda rather than serious analysis - just this time for a book rather than a sound bite.
