REVIEW OF INTRODUCTION TO CHEMICAL ENGINEERING THERMODYNAMICS 7TH EDITION

- Written in the third person, this certainly is Francie's story. The reader gets drawn into the poverty culture of the immigrants of Brooklyn during the years prior to WWI. The characteristics of the tree matches the strengths of the women especially Francie, her mother, Aunts and grandmother. It is a well written story, although perhaps a bit stereotypical. A story of courage and determination. A good read.
- I remember when I first began to read this book for class, didn't understand how a book could be about nothing and still be a classic. But after it all, I've come to classify it as a book about life, simply put. It's a grotesque, truthful, yet beautiful description about life that can be loved by all.
