## REVIEW OF BRC GLOBAL STANDARD FOR FOOD SAFETY INTERPRETATION LINE ISSUE 6

- On 8-30-06, I had four out of five white balls and the red Power ball for a \$10,000.00 win along with the Power Play of four (4) for a total of \$40,000.00. I used the information in Gail Howard's "Lottery Master Guide" to select my Power ball. I used Gail's system 53130-2 Win 3 with 4 right, 30 Numbers in 9 games (2 Power) system for \$9. Gail Howard's systems have allowed me to win many small prizes, however, this was my first big win. Ron Johnson

- Please. Save your money and don't buy this or any other book by Gail Howard. The entire premise of number combinations that are more likely to hit is bogus. It sounds good but it's not real. Do some research online about statistics and probability. Each remaining ball has the same odds of being drawn. There is no skill to these types of lottery games—unlike say following the remaining scratch ticket prizes available for a certain game online and seeing what is the best buy. She has her success by people randomly winning with her book. Those that win are publicized. Those that don't are quietly forgotten. Seriously, you'll win more money by taking the money you would have spent on this book and buying lottery tickets.
