REVIEW OF TCNA HANDBOOK FOR CERAMIC GLASS AND STONE TILE INSTALLATION

- This was a great book about women's lives in Saudi Arabia and the hardships they have to endure even if/when they are wealthy. I have read so many of these kind of books that it is also helping me to understand the differences between different mid Eastern countries i.e. Iran, Iraq, Saudi Arabia etc.

- I just finished reading this book. It was awesome, and I couldn't put it down! The characters were very realistic, and I could picture everything. The plot was great. It was full of suspense. I would reccomend this book to anyone who likes mysteries. Here's my summary: Hannah, who left her family 20 years ago, has decided to come back home. She and her family re-encounter the tragedy that happened so many years ago. Can they finally work out their problems after such a long time trying to ignore it?
