"Fans of Harry Potter or Percy Jackson can add Fionn Boyle as a generous and brave hero from the Emerald Isle." - School Library Connection on The Storm Keeper's Island There is magic deep within Arranmore Island, and Fionn Boyle

is beginning to discover how it has woven its way through generations of his family's history. But Arranmore is in trouble; evil sorceress Morrigan's soul stalkers have returned, giving rise to widespread fear and suspicion. Fionn wants to help, but the Storm Keeper magic passed down from his grandfather seems to have deserted him. Fionn sets out to summon the merrows, a vast army of sea creatures who may be his only chance. But how can he find them without the faintest idea of where to look? The battle to save Arranmore has begun. This gorgeously written, magical tale of family, bravery, and self-discovery is perfect for fans of Orphan Island and A Snicker of Magic.

**The Blessed and the Damned** Open Road Media

The special magic of the Irish imagination shines forth in these fourteen authentic folktales. These tales are filled with the mystery and adventure of a land of lonely country roads and isolated farms, humble cottages and lordly castles, rolling fields and tractless bogs. They tell of ghosts and giants, of strange happenings and wondrous deeds, of fairies and witches and of fools and kings. Above all in these stories there is a sense of the full wonder of a world where the marvellous and the unexpected can always happen, and nothing is ever quite as it seems.

**Stories of Fantasy and Myth** Ragged Bears USA

The Irish folklore of the Otherworld is rich in its many manifestations of supernatural beings and personages. This is represented in many different genres of folklore, such as folktales, legends, ballads, memorates, beliefs and belief statements, and exists within the context of rich literary, historical and

imaginative parallels. This book presents a new reading of Irish religious belief and legend in a meaningful socio-historical context, examining popular belief and narratives of sinful women and unbaptised children, as a way of understanding a particular worldview in Irish society. Blending postmodern approaches with traditional methodologies, the author reviews the representation of women, sin and repentance in Irish folklore. The author suggests new ways of seeing this legend material, indicating strong links between the Irish and the French, specifically Breton, religious tradition, and tracing the nature of this inter-relationship through the post-Tridentine Counter Reformation Roman Catholic Church and its teachings. In this way aspects of Ireland's popular religious and cultural inheritance are examined.

### **REVIEW OF GREAT IRISH LEGENDS FOR CHILDREN**

- I am inclined to disagree with the instructor whose post precedes mine. I would actually describe this text exactly opposite from what this instructor said, and I will describe why, and will include many other drawbacks as well. Firstly, the book is heavily bulked up with extremely IRrelevant stories that do not even remotely qualify as case studies, and which the student can not possibly have time to read when there is a

plethora of real information to be learned. This reading comes across as story time for elementary school students. There is also a very notable lack of diseases mentioned and described, although these can be found in numerous other sources anyway. Further, I do not care for the organization of the book. Some things are nicely organized in to lists or charts, while other important vocabulary, definitions, concepts, and especially pictures, which belong grouped together are spread out over multiple pages, mixed in with other text. On that note, some pictures are very poor to begin with - not properly or thoroughly representing the item. Because of these combined issues of organization and story time, this book is probably close to 100 pages longer than it needs to be, which is undesirable for an already large book. There is a great amount of terms and info which is nowhere to be found in either the index or the glossary - this is a particularly significant problem. I have looked things up on dozens of occasions that I know are in the text, only to be unable to find it in the index or glossary. The companion book software (not the ADAM software, which is excellent), is absolutely useless - grossly lacking in detail, and missing huge areas of information. Lastly, and most importantly, I have found a number of mistakes and contradictions in the text. This is common for any science textbook, but is especially unacceptable in an anatomy and physiology book, for numerous obvious reasons. My own

professor has expressed some of these same concerns about this book, and neither she nor the majority of the lab teaching assistants use this text for personal use. I have earned an A in the anatomy class at a university, and did it while casting this book aside about 1/2 way through the semester. The two software programs, ADAM 4.0 & Anatomy & Physiology Revealed, in addition to lecture and lab materials, as well as the internet, should be enough to ace this class at almost any school without using this book. Use your money on a different text. Proper knowledge of health care related subjects such as A&P; is too important to the student to be relying on a book with as many problems as this one has. The only redeeming aspect of this book is that I believe that it was bundled with the ADAM software, which can be bought separately for about 50-60% the cost of the text by itself - this software is highly recommended. I would also note that I have nothing to compare this book to, so I am judging it on its own merits.

- Gail Jenkins and Christopher Kemnitz have taken Tortora's Anatomy and Physiology in an unexpected and most welcome direction. This text emphasizes clinical physiology for allied health students with a case-study approach. Having taught many thousands of students enrolled in Human Anatomy and Physiology classes and used many different texts, I appreciate this very powerful and clinically relevant text for students on allied health tracks.
