REVIEW OF 2005 ACURA TL VALVE GUIDE MANUAL

• This is a fantastic book. I first read this in elementary school, before it was famous. This is a great pick for young readers, but teens and adults will be challenged accordingly. Step into the parallel universe of the creative mind of Lois Lowery and expect greatness.

• I think that the book was all right. It could have maybe been a little bit better. I was interested the way that it went to all the memories, it went deep into detail. Ex. The colors, sounds, smells, and feelings. I wasn't really interested at first, but as I read on I just couldn't put the book down. I would enjoy just sitting back and comparing mine and Jonas' world. I think I would rather just stay here. I couldn't have lived there because I love to be around animals, and they didn't even have dogs. They didn't even know what animals were. I would still recommend this book to someone else because it held most of my interest.
