REVIEW OF BEST ROVER V8 ENGINE

- I bought this book for my English lit class, I'm a first year college student and

it arrived within 3 days in perfect condition. i would resell it but my bf spilled latte all over it!!

- The writer created a new style. It is not futuristic: it should be called "surrealistic fiction". The book is boring, the general portrait of the future is very brief and full of lacunes, one of the characters spent most of the book just quoting Shakespeare. The ending is absurdly weak; well, it's a trip with no destination at all. It is just boring. I bought thinkin it was a classic, but it is just boring.
