How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions on subjects that ranged from recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award-winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity

and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of The Daily Show; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone "Listener Line" fielded questions on any subject, day and night. From 1968 to Watergate, Boston's WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston Common. Interwoven through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the "news dissector" Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein's documentary WBCN and the American Revolution is available as a DVD sold separately.

Published in association with the Society for Vascular Surgery (SVS), the newly updated edition of Rich's Vascular Trauma draws on civilian and military authorities from around the world to offer comprehensive and up-to-date coverage of the management of vascular injury. Anatomic patterns of vascular trauma including extremity, torso and cervical injury are reviewed in detail, including the latest techniques to manage non-compressible torso hemorrhage. You'll have access to all of the current innovations across the broad spectrum of vascular trauma, presented in a well-organized fashion that allows you to quickly hone-in on the most important issues in patient care and management. Emphasizes the current management of civilian vascular injuries with an historical reflection of pioneering contributions from the battlefield. Combines the largest existing database of military vascular trauma with the experience of one of the nation's premier civilian trauma centers. Examines operative techniques and "damage control" for vascular traumas. For the first time, includes a novel International Perspectives section featuring fascinating accounts of vascular trauma from nine leading surgeons from five continents. This section focuses on innovative surgical treatments tailored to locally developed pathways of care, training solutions, and regional injury patterns. End-to-end coverage of all phases of acute vascular injury care, including a new assessment of the implications of vascular trauma in the pre-hospital setting (i.e. point of injury and en-route care). Covers the emerging hot topics, including endovascular procedures to manage trauma, contemporary use

of vascular shunts, and a modern reappraisal of resuscitative endovascular balloon occlusion of the aorta for shock. An innovative chapter on the systems approach and quality improvement in vascular trauma, offering information and tactics for all providers wishing to understand how clinical systems underpin patient outcome and recovery from this challenging injury pattern. A combined civilian and military authorship from internationally recognized authorities draws on the best available evidence, experience, and lessons-learned from Afghanistan, Iraq, and the "urban battlefield." Medicine eBook is accessible on a variety of devices.

NEW YORK TIMES BESTSELLER • From the stars of the Netflix series Get Organized with The Home Edit (with a serious fan club

that includes Reese Witherspoon, Gwyneth Paltrow, and Mindy Kaling), here is an accessible, room-by-room guide to establishing new order in your home. "A master class on how to arrange even your most unattractive belongings—and spaces—in an aesthetically pleasing and easy-to-navigate way."—Glamour (10 Books to Help You Live Your Best Life) Believe this: every single space in your house has the potential to function efficiently and look great. The mishmash of summer and winter clothes in the closet? Yep. Even the dreaded junk drawer? Consider it done. And the best news: it's not hard to do—in fact, it's a lot of fun. From the home organizers who made their orderly eye candy the method that everyone swears by comes Joanna and Clea's signature approach to decluttering. The Home Edit walks you through paring down your belongings in every room, arranging them in a stunning and easy-to-find way (hello, labels!), and maintaining the system so you don't need another do-over in six months. When you're done, you'll not only know exactly where to find things, but you'll also love the way it looks. A masterclass and look book in one, The Home Edit is filled with bright photographs and detailed tips, from placing plastic dishware in a drawer where little hands can reach to categorizing pantry items by color (there's nothing like a little ROYGBIV to soothe the soul). Above all, it's like having your best friends at your side to help you turn the chaos into calm. Includes a link to download and print the labels from a computer (you will need 8-1/2 x 11-inch clear repositionable sticker project paper, such as Avery 4397).

We all love to read and learn from books, but The Repurposed Library takes our passion even further, presenting us with 33 projects to make--quite literally--out of books. For these projects, Lisa Occhipinti rescues and repurposes orphaned and outdated books from flea markets and library sales and turns them into new art objects and practical items for the home. Her creations range from artfully constructed mobiles, wreaths, and vases, to functional items like shelves, storage boxes, and even a Kindle "keeper" for those who want to replicate the sensation of holding a "real" book while reading from an e-reader. Projects utilize every imaginable part of a book--from hardback cover to

individual pages--and are a DIY celebration of a new way to view a book's potential. Praise for *The Repurposed Library*: "In an age when the bound book is an endangered species, [Occhipinti's] artwork is nicely topical. She now has a book of her own, *The Repurposed Library*, out this week from Stewart, Tabori & Chang. In it, she offers readers a how-to guide to making household objects from, well, books, like a mirror, a lamp and a fire screen, as well as the winsome mobile shown on the cover." - *The New York Times* "Book hoarders rejoice: all those random children's books, encyclopedias, and unread paperbacks are about to find their purpose . . . . Furnished with cheery photographs and numerous hand-drawn diagrams, this endearing book will appeal to veteran crafters and literati alike." - *BUST* magazine "The book is really well-made, fittingly. The photography by Thayer Allyson Gowdy is wonderful and really shows off the projects—and everything in the background is as tastefully arranged as a *Crate & Barrel* catalog. . . . if you love books as objects, *The Repurposed Library* is a fun collection of project ideas." —*Wired.com* "We love how everyday objects like a colorful collection of vintage books can double as décor. . . . Operative trauma surgery is a key element of surgical training world-wide, but many surgical trainees have only limited

exposure to it throughout their training. The aim of this book is to provide a detailed technical guide for trauma surgery by two experienced surgical educators who are experts in the field. The original concept behind this text (compared to other operative surgery texts) is a special emphasis on intra-operative judgement, decision-making, and thought processes, as well as technical 'tips and tricks'. The book will be generously illustrated with black-and-white line drawings, but will NOT be a surgical atlas, because there will not be a step-by-step sequence of illustrations for each procedure. The illustrations will be incorporated into the text rather than appearing on separate pages. As such, the book will be an 'operative surgery' book, along the lines of such British classics as Peter Jones' 'Emergency Abdominal Surgery', Hugh Dudley's editions of 'Hamilton Bailey's Emergency Surgery' and Keen's 'Operative Surgery and Management'.

## **REVIEW OF TOP KNIFE ART AND CRAFT IN TRAUMA SURGERY GRELLS**

- This is just an excellent book on cats in magic and myths. The author obviously did a great amount of research to write this book. Even though it is a somewhat old book the information is very interesting and relevant on this topic. Great for cat lovers and those who enjoy the lore of myth & magic. The edition I own is a hardcover from 1956 published by Castle Books.
- My friend at work bought this book. It proved to be a great investment. It explained how to fine tune your server to get the most out of it. Great buy for a sysadmin wanting performance.
