REVIEW OF LENSES APPLYING LIFESPAN DEVELOPMENT THEORIES IN COUNSELING 1ST EDITION

- This book is awesome. It is hard to believe that 30 years later some of the same problems exist for the NPS. Abbey definitely was a visionary. This book is the best account of real life in a fabulous place. It takes you back to those National Park visits when life was simple and people didn't mind getting out of their car and walking. Today everyone thinks they can "experience" a park from their car, Abbey understood this was coming and didn't mind giving his idea's on the subject. The descriptions of wildlife, flora and fauna are fantastic. You can almost smell the wild flowers. If you really want to experience the canyonlands of Utah, read this book!

- I thought the book was very good and I looked forward to finding out the ending. I did not like that one of the main characters was killed off very early in the story but the writer did go on from there with the other characters.
