**REVIEW OF CALCULUS LATE TRANSCENDENTALS 10TH EDITION INTERNATIONAL STUDENT VERSION**

- Maybe this book deserves 5 stars...I don't know.I simply couldn't get across the book..so many terms used subjectively.Also it focusses on groups, astral planes, auras, meditation, the occult.And I am a little suprised by the multitude of the use of the word "men" instead of "man" in general.Maybe great...but even as a serious spiritual reader this is simple too much assuming stuff for me.I did find 1 great quote in the first 25 pages: "Glamour is the travesty of reality".I would much more recommend any David R Hawkins comments about Essence versus

perception. Although Hawkins recommends this book, I think there are clearer and more down to earth ones.

- Lee Eisenberg's "The Number" simply does not live up to its promise as a financial planning self-help book or

retirement guide. Short on advice and long on anecdotes, little useful information is imparted. Much better advice can be found in Eric Tyson's "Personal Finance for Dummies", a truly helpful finance guide for the average person.
