So what are you waiting on? Beginning your Td40 User Guide downloading journey today and experience all the benefits and comfort that the electronic world of books needs to provide!

REVIEW OF TD40 USER GUIDE

- There is no denying that Mark Twain is one of the best American authors. His wit and caustic style

is just one of a kind, and his novels, with the in depth plot and yet witty and sardonic characters and the episodes that are at times comic and serious, is what defines that man and author that you either love or hate. In "A Connecticut Yankee in King Arthur's Court," it may leave some ambiguous. First of all, the idea is clever: making a man from the 19th century go into another time and era in 6th century Britain so he can critique, satirize, and change the lifestyle of it, therefore creating a "frame" that helps us to view how synonymous the time era back then somewhat reflects the 19th century. However, the main problem is that it's not consistent. Diving in the first few chapters is just fine, but then the story goes along a bit too slow and becomes too difficult to digest. In other words, it doesn't get to the point, and quite frankly it gets kind of dull. At times i would read one chapter and stop, feeling as if i read over 100 pages in half an hour, exhausted. I can understand why many would enjoy this novel, but it personally didnt do anything for me. If there was more action, movement, and a more firm plot (at times i didn't really understand what stance Mark Twain was trying to make, he seemed to try to make a satire on the society of the 6th century in England but it becomes ambiguous and lost throughout the story), perhaps i would give this book at least 3 stars. Apparently Mark Twain wasn't at his best when he wrote this book. Sure, the wit and humor is still there, but the excitement that drove the reader to keep on reading just isn't there. Not highly recommended, but if you are interested in it, go for it. Regardless, it's still a good story, just didn't work for me.

- An excellent overview of Shinobi Ninja shadowhand (taisavaki-jutsu) techniques, this book has great practical application for any who study the martial arts. It was recommended by a friend in the military as a way to hone and enhance both defensive and offensive skills. The methods of invisibility discussed and detailed in a very "how to" manner work extremely well and can be rapidly learned. Moves are explained by narration, schematics, and body drawings. It appears that some of the other amazon reviewers are looking for either an historical review of Ninja tactic, or a cartoon parody. This book is neither. Rather, it is for those who seek a primer for invisibility, disguising or misdirecting attention, and shadowhand striking styles. "Avoid being seen... Seen, avoid capture... Captured, avoid being held."
