REVIEW OF 2014 MARCH N3 MATHEMATIC QUESTION PAPERS

- After reading the first four books of the Wheel Of Time series, I was rather impressed with the fifth. Not only was Robert Jordan able to come up with a bunch of new ideas (that we all thought he'd used up in his first four) but he was able to freshen your memory without the repetition of other authors. Robert Jordan is the best author that there has been for a long time, when people are still reading his books fifty years from now, I won't be surprised. The quality of Fires In Heaven is unsurpassable, and there will never be a fiction/fantasy book that equals it. Long live the Wheel Of Time.
- I got this and read it many, many times every Christmas, fun illustrations, and an obviously loved poem, It's also cheep, get it!
