Also included in this book is the Photoreading whole mind system, I have reviewed that book as well. This is a highly effective technique for liberating your speed-reading potential. Overall this book can and should help everyone. , you'll be hard pressed to find a better method - well done!

- Miss Pettigrew Lives for a Day: a delightful, classically English story about a woman put into a situation completely out of her element, who surprises herself and rises to the occasion. An amusing, light, easy read that I enjoyed. The movie diverges quite a bit from the plot of the book. While I enjoyed the wonderful acting in the movie, I preferred the book's plot.
