An ideal combination of communication

theory and practical advice, *Communicating About Health: Current Issues and Perspectives*, Fourth Edition, is an indispensable resource for readers looking to improve their communication abilities in the health care field. Written by Athena du Pré--an experienced researcher and noted scholar--the text offers an excellent balance of theory and practice; research and pedagogy; coverage of patient/caregiver issues; and material on the current, historical, and philosophical backgrounds of communication in health care. In addition to enhancing features found in the previous edition, this new edition includes a greater emphasis on theory, narrative, and technology in order to reflect changes in the health industry. What's New to the Fourth Edition? * A

new chapter--eHealth, mHealth, and Telemedicine--describes the global impact of smartphone and tablet technology, tailored health messages, and the Internet on the health industry * A new chapter, Health Care Administration, Human Resources, Marketing, and PR, provides in-depth coverage of the contributions and communication strategies involved in leadership, morale, service excellence, community engagement, and more * An expanded discussion of communication not only involves physicians and nurses but also pharmacists, allied health personnel, dentists, therapists, and others * New features--"Can You Guess?," "What Do You Think?," "Check It Out!," and "In Your Experience"--offer a higher level of engagement with

students and stimulate critical thinking and discussion Support Package (contact your Oxford sales representative or call 800-280-0280 to request these resources) * An interactive website, known as a Prezi, is available for each chapter at www.oup.com/us/dupre and includes videos, activities, discussion questions, key points, and more. Suitable for use in class or online. * An Instructor's Manual and Test Bank, available both in print and online at www.oup.com/us/dupre, features sample syllabi, test questions, self-assessment activities, background reading, and more.

Vast areas of the Netherlands seem to be filling up with low-cost housing, low-

rent offices, warehouses and other low-density structures--producing a vast sea of architectural mediocrity. This book examines the prospects for animating this tendency. Conceived and edited by Winy Maas and Jacob van Rijs with Richard Koek and produced by MVRDV, FARMAX reads as an architectural narrative composed of studies and designs made by MVRDV and students from Delft University of Technology, the Berlage Institute and the Rotterdam Academy of Architecture and Urban Planning, along with contributions by other authors.

In the summer of 1932, Americans are coming to realize that the financial crash of 1929 was only the beginning of hard

times. May Marshall has returned from Paris to settle at her family home in rural Keswick, Virginia. She struggles to keep her family farm and market afloat through the economic downturn. May finds herself juggling her marriage with a tempting opportunity to revamp the family business to adapt to changing times. In a cold-water West End Boston tenement the fractured Sykes family scrapes by on an itinerant mechanic's wages and home sewing. Having recently lost her mother, sixteen-year-old Dorrit Sykes questions the religious doctrine she was raised in. Dorrit is reclusive, held back by the anxiety attacks that have plagued her since childhood. Attempting to understand what limits her, she seeks inspiration in Nancy Drew mysteries and finds solace

at the Boston Public Library, writing fairy stories for children. The library holds answers to both Dorrit's exploration of faith and her quest to understand and manage her anxiety. When Dorrit accompanies her father to Washington, DC, in the summer of 1932 to camp out and march with twenty thousand veterans intending to petition President Hoover for early payment of war bonuses, she begins an odyssey that will both traumatize and strengthen her. Along the way she redefines her faith, learning both self-sufficiency and how to accept help. Dorrit's and May's lives intersect, and their fates will intertwine in ways that neither could have imagined or expected. Set against a backdrop of true historical events, In All Good Faith tells a story of two women's

unlikely success during the Great Depression.

What it is and what it Does Routledge

In 1976 a young German girl named Anneliese Michel underwent a series of exorcisms. The rites were administered by two priests of the Catholic Church to free Anneliese of the six demons they believed possessed her. Seemingly as a result of the exorcisms the girl died. Worldwide publicity followed when the girl's parents and the two exorcists were

brought to trial and convicted of negligent homicide. Here a noted anthropologist offers her own interpretation of the exorcisms of Anneliese Michel. Drawing on interviews with the two exorcists, the girl's parents and friends, transcripts of the trial, and tape recordings made during the exorcisms - as well as studies of religious experience in various cultures - Felicitas Goodman has written a fascinating, compelling book, one that finally tells what happened in this strange case as it delves into the age-old mystery of demonic possession.

“The Circular Study” is a 1900 detective novel by Anne Katherine Green. The story revolves around a cryptic message received by Detective Gryce that takes him to a quiet house in up-market New York City where he discovers a dead body laid out delicately in the study. With an apparently insane, deaf, and dumb butler and a bird in a cage as the only witnesses, Gryce must employ the aid of Miss Amelia Butterworth to uncover the mystery of this heinous crime. The third instalment of Green's female detective series “The Amelia Butterworth Mysteries” and also number ten in the “Mr Gryce Series”, “The

Circular Study” is a riveting murder mystery not to be missed by fans and collectors of classic detective fiction. Anna Katharine Green (1846–1935) was an American novelist and poet. Among the first writers of detective fiction in America, she is considered to be the “mother” of the genre for her legally-accurate and well-thought-out plots. Other notable works by this author include: “The Leavenworth Case” (1878), “A Strange Disappearance” (1880), and “The Sword of Damocles: A Story of New York Life” (1881). Read & Co. Classics is proudly republishing this vintage detective novel now in a brand new edition complete with a specially-commissioned new biography of the author.

This is not your typical programming book! Jump right in with interesting, useful programs, some of which are drawn from classic computer science problems as a way of talking about the programming constructs in the language rather than explaining everything in a dry, theoretical manner that doesn't translate well to implementation. Rust programming has been the "most loved programming language" in the Stack

Overflow Developer Survey every year since 2016! Learn why programmers are using Rust due to its performance and efficiency, without the errors and crashes that a programmer would find in common languages such as C and C++. Built around solving real problems, this book will help introduce you to computer science problems that can be built upon to create solutions for other problems. **LEARN BY DOING:** This book will focus on a practical approach to learning Rust. You will learn all of the language fundamentals through the use of programming examples that do interesting things! All of the programs covered will be based on a computer science problem or other interesting problems that can be used as a foundation for demonstrating language

syntax, data types and structures, and other features or techniques for developing programs.

School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this

complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

REVIEW OF PAPERONITY RAPEKAMAKATHAIKAL

- A Compendium of Herbal Magic is

uniquely designed to bring the reader or the researcher wonderfully complete information on a vast variety of herbs. The Paul Beyerl's writing is clear, concise, and interesting. Section one on the classifications for the herbs is helpful, as is section three on the usage. The complementary sections on lore and usage for individual herbs in section two

are especially fascinating to the researcher as well as to someone simply looking to know what herb to use for which ritual.

- I know this is a classic but I just could not get into the story. Thought I would try electronic books but I need the paper feel when reading.
