REVIEW OF GAS TURBINE ENGINEERING HANDBOOK SAWYER

- I have to admit to not being the world's biggest golf fan but in the hands of an expert storyteller like Feinsteen, the sport takes on a life of its own. Initial reviews highlighted the lengthy build-up/preparation for the tournament as a negative, but the scene setting really allows the reader to delve into the psyche (not only of the players, but of the Open itself). Do yourself a favor and buy this book.

- If you have any passion for animals at all, you will devour this book. It's so sweet and wonderful -- a masterpiece of 20th century literature. Mr. Herriot was truly a gifted writer. His heart could be felt in every word -- he deeply cared for the animals he doctored over the years. Aside from the endearing tails (pardon the pun), he masterfully described the European countryside, the people who belonged to the pets, the pubs he frequented and his everyday astonishing feats of medical marvelry. Yet he was so humble and down-to-earth. His stories are either tear-jerkers or pant-wetters. More than once I found myself nearly crying during study period at college because I was laughing so hard. Some of my favorite shorts were "The Card Over the Bed", "Tricki Woo", "Granville Bennett", "Have a Cigar" and "Mrs. Donovan" -- the latter being my favorite. (Mrs. Donovan was a crone who patrolled the streets of Darrowby trying to cure people's animals quite often causing strife for Mr. Herriot.) The very best thing about this book, aside from it being a quick and easy read, is that the stories are broken up so that you can put it down at any time and come back to it without fear of having lost your place. James Herriot was the master of animal literature. Never have I encountered a more tasteful writer who so accurately depicted the behavior of dogs. I am a huge animal lover having two cats and a dog of my own. I found amazing similarities between the antics of the dogs showcased in this book and my own golden lab, and reading it made me want to cuddle him closer.
