## REVIEW OF MANAGEMENT SCHERMERHORN 12TH EDITION

- All throughout the basic wraith book they make references to this. They did so with good reason. The info on Soulforging was great, though i thought that the focus should have stayed on the more modern powers. The history of the coup is nice, and i thought it was worth the cost
- This books begins slow, moves along at a faster clip in the middle and then, without warning,

abandons the reader without an ending or even an inkling another book is coming. Talk about frustrating! Now I see Koontz has book #2 ready to sell his legions of fans, who can overlook what now seems as an obvious effort to milk two sales out of what should have been one book. No doubt I will bite..no pun intended..but not happily and hoping this is not his version of a Frankenstein series.
