## REVIEW OF ALAN PATON S CRY THE BELOVED COUNTRY

- I have read almost ever single review that is listed on Amazon's site and must say that I am greatly disappointed with what people thought of Card's finish to the Ender's Game Series.... Personally I found Card's forth book to be inspiring and a much needed addition to the Science Fiction genre. People have complained about his technique and about certain aspects of his book. But, I think they all miss the point. Card has created a type of science fiction that hasn't been done before, the people that hate this book were shocked and because of the were disapointed, when the reality of this book is that it is superb. It is amazing, and I think it is Card's best Ender's Game book. Because it DOESN'T focus on the Science, that Card has already established, but focuses on the PEOPLE, which is what his reader's loved.

- Mr. Card had a great plot for the first book of this series. I really enjoyed that one. While Children of the Mind has some interesting ideas and insights, it is neither as powerful nor as captivating.
