Learn physics, chemistry, and biology in your own backyard! In Outdoor Science Lab for Kids, scientist and mom Liz Heinecke has created 52 family-friendly labs designed to get you and yours outside in every season. From playground physics to backyard bugs, this book makes it fun and easy to dig into the natural sciences and learn more about the world around you. Have fun learning about: the laws of physics by constructing and using a marshmallow catapult. centripetal forces by swinging a sock filled with gelatin snack and marbles. earthworms by using ground mustard seed dissolved in water to make them wriggle to the surface. germination by sprouting a sapling from a pinecone or tree seed. surface tension and capillary action by growing baking soda stalagmites and stalactites. Many of the simple and inexpensive experiments are safe enough for toddlers, yet exciting enough for older kids, so families can discover the joy of science and STEM education together. Outdoor Science Lab for Kids was a 2017 Finalist for the AAAS/Subaru Prize for excellence in science books. The popular Lab for Kids series features a growing list of books that share hands-on activities and projects on a wide host of topics, including art, astronomy, clay, geology, math, and even how to create your own circus—all authored by established experts in their fields. Each lab contains

a complete materials list, clear step-by-step photographs of the process, as well as finished samples. The labs can be used as singular projects or as part of a yearlong curriculum of experiential learning. The activities are open-ended, designed to be explored over and over, often with different results. Geared toward being taught or guided by adults, they are enriching for a range of ages and skill levels. Gain firsthand knowledge on your favorite topic with Lab for Kids.

Understanding Your Young Teen is a book on early adolescent development for parents of young teens and pre-teens. Parents of young teens will 1. Gain an understanding of the unique and not-always-obvious realities of early adolescent development. This new understanding can greatly enhance parents' patience, parenting approaches, and relationship with their child. 2. Review the developmental uniquenesses of the young teen years. Most parents don't fully appreciate the changes that are taking place in their teens bodies, minds and relationships. This resource will give them a solid understanding of those areas. 3. Explore new research and cultural changes. Parents will get a better understanding of the changing landscape of teen culture and see how much as changed since they were young teens. The bulk of the book will be based on the first half of: Middle School Ministry. The developmental chapters will be re-written for parents, and will not only include the developmental issues themselves, but the practical implications for parenting and living with young teens. A strong pro-young teen bias will permeate the book, as my

affection for young teens and conviction that this age is a great opportunity for faith formation will be woven through all chapters. While the book will be based on research and experience, the tone will be conversational, from one parent of young teens to others. First-person tense will be used throughout, along with examples from my family and extensive involvement with young teens.

One of President Obama's Favorite Books of the Year | A New York Times Notable Book | One of the Wall Street Journal Ten Best Books of the Year "Missionaries is a courageous book: It doesn't shy away, as so much fiction does, from the real world." —Juan Gabriel Vásquez, The New York Times Book Review "A sweeping, interconnected novel of ideas in the tradition of Joseph Conrad and Norman Mailer . . . By taking a long view of the 'rational insanity' of global warfare, Missionaries brilliantly fills one of the largest gaps in contemporary literature." —The Wall Street Journal The debut novel from the National Book Award-winning author of Redeployment A group of Colombian soldiers prepares to raid a drug lord's safe house on the Venezuelan border. They're watching him with an American-made drone, about to strike using military tactics taught to them by U.S. soldiers who honed their skills to lethal perfection in Iraq. In Missionaries, Phil Klay examines the globalization of violence through the interlocking stories of four characters

and the conflicts that define their lives. For Mason, a U.S. Army Special Forces medic, and Lisette, a foreign correspondent, America's long post-9/11 wars in the Middle East exerted a terrible draw that neither is able to shake. Where can such a person go next? All roads lead to Colombia, where the US has partnered with local government to keep predatory narco gangs at bay. Mason, now a liaison to the Colombian military, is ready for the good war, and Lisette is more than ready to cover it. Juan Pablo, a Colombian officer, must juggle managing the Americans' presence and navigating a viper's nest of factions bidding for power. Meanwhile, Abel, a lieutenant in a local militia, has lost almost everything in the seemingly endless carnage of his home province, where the lines between drug cartels, militias, and the state are semi-permeable. Drawing on six years of research in America and Colombia into the effects of the modern way of war on regular people, Klay has written a novel of extraordinary suspense infused with geopolitical sophistication and storytelling instincts that are second to none. *Missionaries* is a window not only into modern war, but into the individual lives that go on long after the drones have left the skies.

REVIEW OF TUBE YOUNG TEENS

- Of the 200+ baseball books I've read, "Babe: The Legend Comes to Life" is my favorite. Creamer wrote the book while some of the old-timers were still alive, and this makes his story come to life. If you want to learn about Babe Ruth, this is the definitive book to read.
- What a bunch of adolescents. All pretty self-serving. And disappointing. I don't think friendship is too awfully deep when you screw around with your best friend's husband. Kind of a book about 30 year olds not wanting to grow up - forget the fact that their dear friend has died. And talk about a suffocating mother....YIKES! This book is mediocre at best.
