Case Studies for Corporate Finance: From A (Anheuser) to Z (Zyys) (In 2 Volumes) provides a distinctive collection of 51 real business cases dealing with corporate finance issues over the period of 1985–2014. Written by Harold Bierman Jr, world-renowned author in the field of corporate finance, the book spans over different areas of finance which range from capital structures to leveraged buy-outs to restructuring. While the primary focus of the case studies is the economy of the United States, other parts of the world are also represented. Notable to this comprehensive case studies book are questions to which unique solutions are offered in Volume 2, all of which aim to provide the reader with simulated experience of real business situations involving corporate financial decision-making. Case studies covered include that of Time Warner (1989–1991), The Walt Disney Company (1995), Exxon-Mobil (1998), Mitsubishi's Zero Coupon Convertible Bond (2000), and Apple (2014). **Entrepreneurship** John Wiley & Sons

A substantially updated new edition of the essential text on financial modeling, with revised material, new data, and implementations shown in Excel, R, and Python. Financial Modeling has become the gold-standard text in its field, an essential guide for students, researchers, and practitioners that provides the computational tools needed for modeling finance fundamentals. This fifth edition has been substantially updated but maintains the straightforward, hands-on approach, with an optimal mix of explanation and implementation, that made the previous editions so popular. Using detailed Excel spreadsheets, it explains basic and advanced models in the areas of corporate finance, portfolio management, options, and bonds. This new edition offers revised material on valuation, second-order and third-order Greeks for options, value at risk (VaR), Monte Carlo methods, and implementation in R. The examples and implementation use up-to-date and relevant data. Parts I to V cover corporate finance topics, bond and yield curve models, portfolio theory, options and derivatives, and Monte Carlo methods and their implementation in finance. Parts VI and VII treat technical topics, with part VI covering Excel and R

issues and part VII (now on the book's auxiliary website) covering Excel's programming language, Visual Basic for Applications (VBA), and Python implementations. Knowledge of technical chapters on VBA and R is not necessary for understanding the material in the first five parts. The book is suitable for use in advanced finance classes that emphasize the need to combine modeling skills with a deeper knowledge of the underlying financial models.

## **REVIEW OF FUNDAMENTALS OF CORPORATE FINANCE 5TH EDITION**

- I rarely read historical fiction or even watch historical movies. But I got this on a whim and just loved it. It is a fabulous story of sibling rivalry between Anne Boleyn and her sister Mary. Their family basically sold them out to win the favor of King Henry VIII. But I loved the interaction of the sisters and their brother George, who must have been gay. If you like a saucy romance and imagining what it must have been to be a woman in the King's court in those days, I highly recommend this book. Power Path to Love
- What can I say about this book, is one of my all time favorites, and have read it several times, and have recommended it and loaned my book to many friends, and family members. The author makes you feel like you are part of the action, and I enjoyed the movie version as well. Want to put it on my Kindle soon.
