Angry Birds Parabolic Edition by Natasha Bitra “The Parabolic Edition” Red

Bird, Yellow Bird, Blue Bird and Black Bird are angry with the pigs. The pigs stole the bird's eggs. The birds want their eggs back and will stop at nothing to get them back. The flight path of the birds can be modeled with a parabola. Use "x" as the distance and "y" as the height. REVIEW OF ANGRY BIRDS THE PARABOLIC EDITION

- This is my favorite one in the series so far. This one is about Martin The warrior on a quest to find boar the fighter, and it is also about Maritn the warrior defeating Tsarmia queen of a thousand eyes, or verdauga greeneyes whatever you want to call her. I would actually reccomend to start with mossflower then redwall. Or if you want the series the way it should be so you dont spoil any surprises, here is the listLord

brocktreeMartin the warriorMossflowerLegend of luke (strongly reccomended great story, I would say the best one of them all)Outcast of RedwallMariel of redwallBellmakerSalam andastronRedwallMatti meoThe pearls of LutraLong patrolMarlfoxTaggerung

- And I cannot believe that D Merlot thinks this is an un-important and poor example of the series. The author is finally beginning to tie in Acheron's ancestry and how and why the Appolites, Spathi, and Skoti are. If you go to Ms Kenyon's website you will see through reading the profiles and beginnings that this all has to tie in somehow and world building cannot be just about hot sex with it

going absolutely nowhere. Merlot also missed an important clue about this particular Dark Hunter. SPOILERS Wulf was tricked into giving up his soul and never actually died like the other Dark Hunters. Even Zarek died but he maintained his soul because Artemis was loathe to touch him. Though I enjoyed these stories, I never sensed for certain that they were going any place. Although they could stand on their own there did seem to be some greater purpose in mind. Kenyon took her time building this Mythology based world slowly. The first book imo was horrid and if I had read it first, I may never have continued with the series. I am very happy that I did and I recommended it to many other readers in hopes that eventually Kenyon would begin to tie all the facets of this paranormal world together. And she does begin in KOTN, indeed, this is the most serious of the books so far and gives us the most clues as to Acheron's identity as well as the relationship between Apollymi, Artemis, Kat and Acheron. Sadly, when I see that a reader like Merlot missed the full importance of this book in the series I grow concerned. Will she be one of those that runs back to KOTN, many books later, wondering if there was something there she should have been looking for, besides hot sex and the killing of Daimons? Sure this is a fun part

of the book and everybody would miss it, if it suddenly dissapeared. I do not see that happening, however. Also, Merlot should remember that the Dark Hunters NEVER EVER kill Apollites. It is forbidden and that is who Kenyon wanted us to sympathize with. If my speculations about this series come to be, I

fear our dissappointed reader will be horrified when she learns of Acheron's grander than humble origins. Well, hopefully there will be enough sex and slaying to keep her happy and if not she can always read a Kinley McGregor gratuitous medieval. For me, give me a solid based world building and a series that titlilates the mind and I am happy.
