REVIEW OF AIAG PPAP MANUAL 4TH EDITION FREE

- Having read and absolutely enjoying ever other book he has written, I was devastated by the poor overall quality of this book. W.E.B. Griffin DID NOT write this piece of junk!
- I've read a great deal of Griffin's novels and have enjoyed his writing but I was most disappointed in Saboteurs. He builds great characters only to unceremoniously and quickly kill them off leaving you to wonder why he spent so much effort telling you about the character. The title characters are sacrificed seemingly early in the story. About 20 pages from the end, as a second story develops, one wonders how it can possibly take place in the remaining pages. It doesn't. Instead of the great storytelling one expects, the writer breezes over the storyline to a rather abrupt conclusion. I'm sure there's a sequel in the works, but I won't be buying it.
