REVIEW OF ATLANTE DI NEUROSCIENZE DI NETTER

- I really wanted to get behind this book. I've read other zombie novels and I've loved them. I just couldn't. This was a really quick read. The main characters were bothersome. The one with the most depth became dull as the author reminded us again and again of the character's driving force. A lot of the prose was beating the dead dog. Anytime someone came up with a proactive idea, there were pages upon pages of argument. The point when I felt the characters should have argued, they didn't, causing plenty of problems and

ultimately forcing them from their safe haven. The initial few chapters, in which everyone died, had me on edge. They were that awesome. The shell shocked survivors that came after that, well, let's just say that their elevators no longer went to the top floor. The zombies, oh the zombies. There wasn't even really a zombie until a good quarter of the way through the book. Even after the dead started shambling, they only shambled aimlessly, not reaching their full zombie potential until well into the novel. Scenes involving them varied from nail biting to dull. I'm torn as to if I'm going to attempt to continue the series. I'm hoping that the author learned from his faults and improved, because what was exciting was very much so. It was just padded with a whole lot of unnecessary fluff.

- I have always loved Patricia Cornwell's books but her recent ones don't appeal to me anymore. Now I have discovered Kathy Reichs and I love her books!!! If you're a fan of the Bones TV show, try reading this!
