How can I reach the C-suite? That is the most common question Cassandra Frangos hears from the executives she coaches. Many aspire to reach the C-suite, but the typical paths to the top are hard to find and difficult to follow. In *Crack the C-Suite Code*, Frangos reveals the hidden dynamics for reaching the C-suite. She offers expert guidance based on her experience as a consultant at Spencer Stuart and former head of global executive talent at Cisco, a company with 70,000 employees. Her deep research on the topic includes candid interviews with CEOs, hundreds of aspiring C-suite candidates, and the leading experts in the field. Frangos identifies four core paths you can follow to reach the C-suite: The Tenured Executive, The Free Agent, The Leapfrog Leader, and The Founder. To actively improve your chances for success, she presents: Insider knowledge from current CEOs and well-known executives Guiding questions that clarify the risks and rewards associated with each path Accelerators and derailers that either enhance or detract from your chances to succeed Advice on how to leverage your experience, leadership brand, and mindset to help you land on the C-suite short list Insight on how the evolving role of the CEO affects your strategy to reach the top A career playbook for anyone who aspires to the top spot, *Crack the C-Suite Code* features advice from successful C-level leaders, including Accompany's Amy Chang, Goldman Sachs' Edith Cooper, Nest's Yoky Matsuoka, Cisco's Chuck Robbins, and Corning's Wendell Weeks. chief executive officer education requirements: *Scaling Up* Verne Harnish, 2014 In this guide, Harnish and his co-authors share practical tools and techniques to help entrepreneurs grow an industry -- dominating business without it killing them -- and actually have fun. Many growth company leaders reach a point where they actually dread adding another customer, employee, or location. It feels like they are just adding more weight to an ever-heavier anchor they are dragging through the sand. To make matters worse, the increased revenues have not turned into more profitability, so at some point they wonder if the journey is worth the effort. This book focuses on the four major decisions every company must get right: People, Strategy, Execution and Cash. The book includes a series of One-Page tools including the One-Page Strategic Plan and the Rockefeller Habits Execution Checklist, which more than 40,000 firms around the globe have used to scale their companies successfully.

chief executive officer education requirements: *Beyond Digital* Paul Leinwand, Mahadeva Matt Mani, 2022-01-04 Two world-renowned strategists detail the seven leadership imperatives for transforming companies in the new digital era. Digital transformation is critical. But winning in

today's world requires more than digitization. It requires understanding that the nature of competitive advantage has shifted—and that being digital is not enough. In *Beyond Digital*, Paul Leinwand and Matt Mani from Strategy&, PwC's global strategy consulting business, take readers inside twelve companies and how they have navigated through this monumental shift: from Philips's reinvention from a broad conglomerate to a focused health technology player, to Cleveland Clinic's engagement with its broader ecosystem to improve and expand its leading patient care to more locations around the world, to Microsoft's overhaul of its global commercial business to drive customer outcomes. Other case studies include Adobe, Citigroup, Eli Lilly, Hitachi, Honeywell, Inditex, Komatsu, STC Pay, and Titan. Building on a major new body of research, the authors identify the seven imperatives that leaders must follow as the digital age continues to evolve: Reimagine your company's place in the world Embrace and create value via ecosystems Build a system of privileged insights with your customers Make your organization outcome-oriented Invert the focus of your leadership team Reinvent the social contract with your people Disrupt your own leadership approach Together, these seven imperatives comprise a playbook for how leaders can define a bolder purpose and transform their organizations.

chief executive officer education requirements: *Strategy That Works* Paul Leinwand, Cesare R. Mainardi, 2016-01-12 How to close the gap between strategy and execution Two-thirds of executives say their organizations don't have the capabilities to support their strategy. In *Strategy That Works*, Paul Leinwand and Cesare Mainardi explain why. They identify conventional business practices that unintentionally create a gap between strategy and execution. And they show how some of the best companies in the world consistently leap ahead of their competitors. Based on new research, the authors reveal five practices for connecting strategy and execution used by highly successful enterprises such as IKEA, Natura, Danaher, Haier, and Lego. These companies: • Commit to what they do best instead of chasing multiple opportunities • Build their own unique winning capabilities instead of copying others • Put their culture to work instead of struggling to change it • Invest where it matters instead of going lean across the board • Shape the future instead of reacting to it Packed with tools you can use for building these five practices into your organization and supported by in-depth profiles of companies that are known for making their strategy work, this is your guide for reconnecting strategy to execution.

chief executive officer education requirements: *Boards That Lead* Ram, Dennis, 2013-11-19 Is your firm's board creating value—or destroying it? Change is coming. Leadership at the top is being redefined as boards take a more active role in decisions that once belonged solely to the CEO. But for all the advantages of increased board engagement, it can create debilitating questions of authority and dangerous meddling in day-to-day operations. Directors need a new road map—for when to lead, when to partner, and when to stay out of the way. Boardroom veterans Ram Charan, Dennis Carey, and Michael Useem advocate this new governance model—a sharp departure from what has been demanded by governance activists, raters, and regulators—and reveal the emerging practices that are defining shared leadership of directors and executives. Based on personal interviews and the authors' broad and deep experience working with executives and directors from dozens of the world's largest firms, including Apple, Boeing, Ford, Infosys, and Lenovo, *Boards That Lead* tells the inside story behind the successes and pitfalls of this new leadership model and explains how to: • Define the central idea of the company • Ensure that the right CEO is in place and potential successors are identified • Recruit directors who add value • Root out board dysfunction • Select a board leader who deftly bridges the divide between management and the board • Set a high bar on ethics and risk With a total of eighteen checklists that will transform board directors from monitors to leaders, Charan, Carey, and Useem provide a smart and practical guide for businesspeople everywhere—whether they occupy the boardroom or the C-suite.

chief executive officer education requirements: *Redesigning Continuing Education in the Health Professions* Institute of Medicine, Board on Health Care Services, Committee on Planning a Continuing Health Care Professional Education Institute, 2010-03-12 Today in the United States, the

professional health workforce is not consistently prepared to provide high quality health care and assure patient safety, even as the nation spends more per capita on health care than any other country. The absence of a comprehensive and well-integrated system of continuing education (CE) in the health professions is an important contributing factor to knowledge and performance deficiencies at the individual and system levels. To be most effective, health professionals at every stage of their careers must continue learning about advances in research and treatment in their fields (and related fields) in order to obtain and maintain up-to-date knowledge and skills in caring for their patients. Many health professionals regularly undertake a variety of efforts to stay up to date, but on a larger scale, the nation's approach to CE for health professionals fails to support the professions in their efforts to achieve and maintain proficiency. *Redesigning Continuing Education in the Health Professions* illustrates a vision for a better system through a comprehensive approach of continuing professional development, and posits a framework upon which to develop a new, more effective system. The book also offers principles to guide the creation of a national continuing education institute.
